INSTRUCTIONS TO THE STUDY COORDINATOR:

- The following questionnaire should be given to the parent/guardian prior to the clinical exam and preferably in a quiet secluded area (i.e., exam room or other office). The parent/guardian must be able to read at the sixth-grade level at a minimum to complete the form herself/himself. If not, the Study Nurse should complete the form with the individual, using the QUALITY OF LIFE SCALES provided in the CRF Notebook. This questionnaire should only be given to parent/guardian whose children are between 5 and 11 years of age.
- **Pages 1 - 2 of this clinic form must be completed by the Study Nurse.** DO NOT SHOW PAGES 1 - 2 OF THIS FORM TO THE PATIENT. Pages 3 - 10 are completed by the parent/guardian. Before giving the questionnaire to the parent/guardian, please fill out the header(s) and DETACH PAGES 1 - 2.
- It is important to be familiar with the content and format of the questionnaire before giving it to study participants. At the first visit, please begin by explaining to the parent/guardian the format of the questions and how to complete them.
- Each question is in the same general format and contains several items. Note that the patient is always asked to CIRCLE a number or make an "X" or "✓" next to the appropriate category.
- Collect the completed questionnaire before the clinical exam. Before going on, review the questionnaire for omissions. If the participant missed any of the questions, point this out and have him/her complete the omission.
